

Mandatory Stand-Up Talk

March 11, 2020

COVID-19 employee resources available

The Postal Service has introduced Blue and LiteBlue web pages to share information with you about Coronavirus Disease 2019, also known as COVID-19.

The pages feature posters and information sheets from the Centers for Disease Control and Prevention (CDC) — including several new ones since our last stand-up talk. *[Note: Managers are encouraged to print copies of CDC's "Share Facts about COVID-19" and provide as handouts. Mention here that copies will be given out at the end of your talk.]*

There are also videos and articles from our postal news site Link on the topic, plus on the Blue page, stand-up talks with tips for staying healthy. In addition, the Blue page has a link to Postmaster General Megan Brennan's video message to employees on the coronavirus.

The Blue page is available on any computer connected to the Postal Service network, while the LiteBlue page can be viewed on any computer, smartphone or other device with an internet connection.

The LiteBlue site (liteblue.usps.gov/lite-blue/covid19) can be found by going to "[LiteBlue-dot-usps-dot-gov](https://liteblue.usps.gov)" and selecting the "COVID-19" link in the Hot Topics box at the top left side of the home page.

You will need your employee ID and password to log on to the LiteBlue page.

These pages will be updated when new information is available, and we will continue to communicate with you regularly. For current information and more details, visit the CDC website, at www.cdc.gov.

Thank you for listening.
